How to use the App?

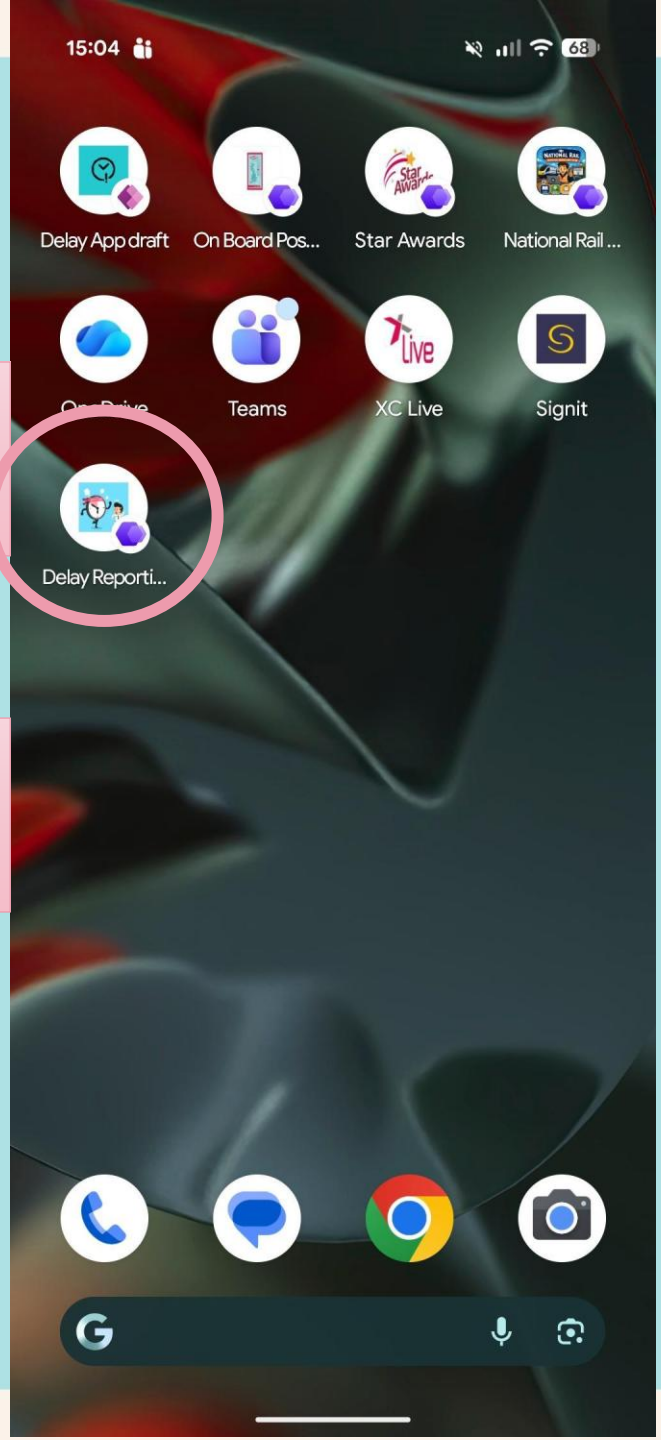

CROSSCOUNTRY VALUES
Our core values will guide every decision we make and be visible in our actions every day.

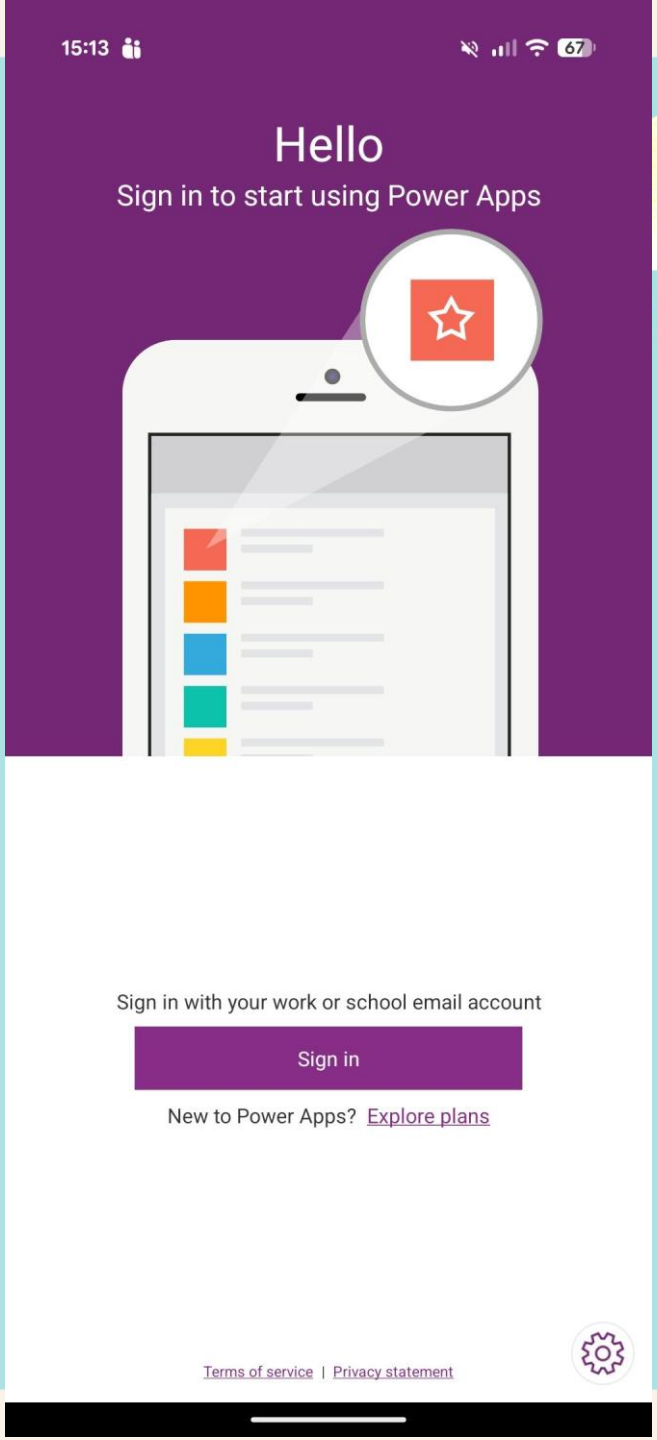

We care passionately
We do the right thing
We make the difference

Instruction

The Delay Reporting has been installed and located in your home screen

When you open the app, it will require you to sign in with your company account

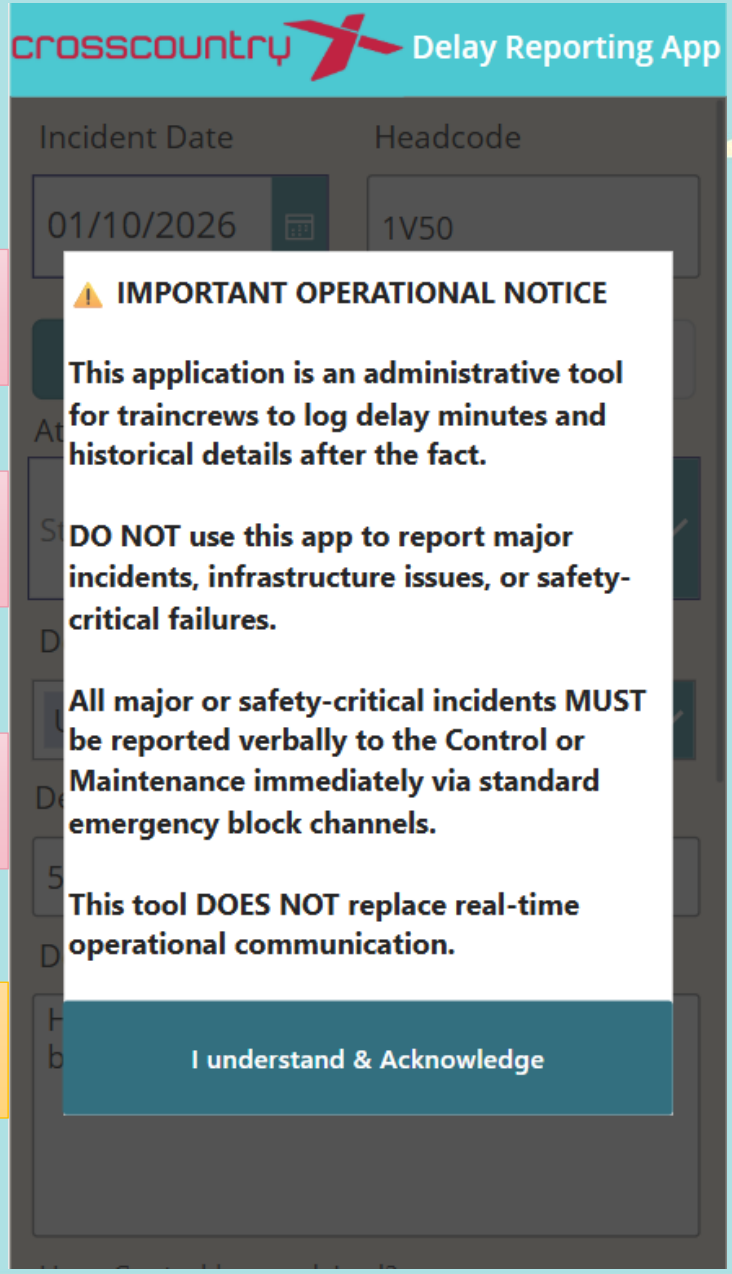

Instruction (Continue)

When you open the app, you will first see a message window on the screen

This act as a reminder not to use this app as primary tool to communicate with Control

If you have encounter safety or welfare critical incident, you must inform Control or Maintenance verbally

Once you have read and acknowledge the message, you can press the blue button to proceed

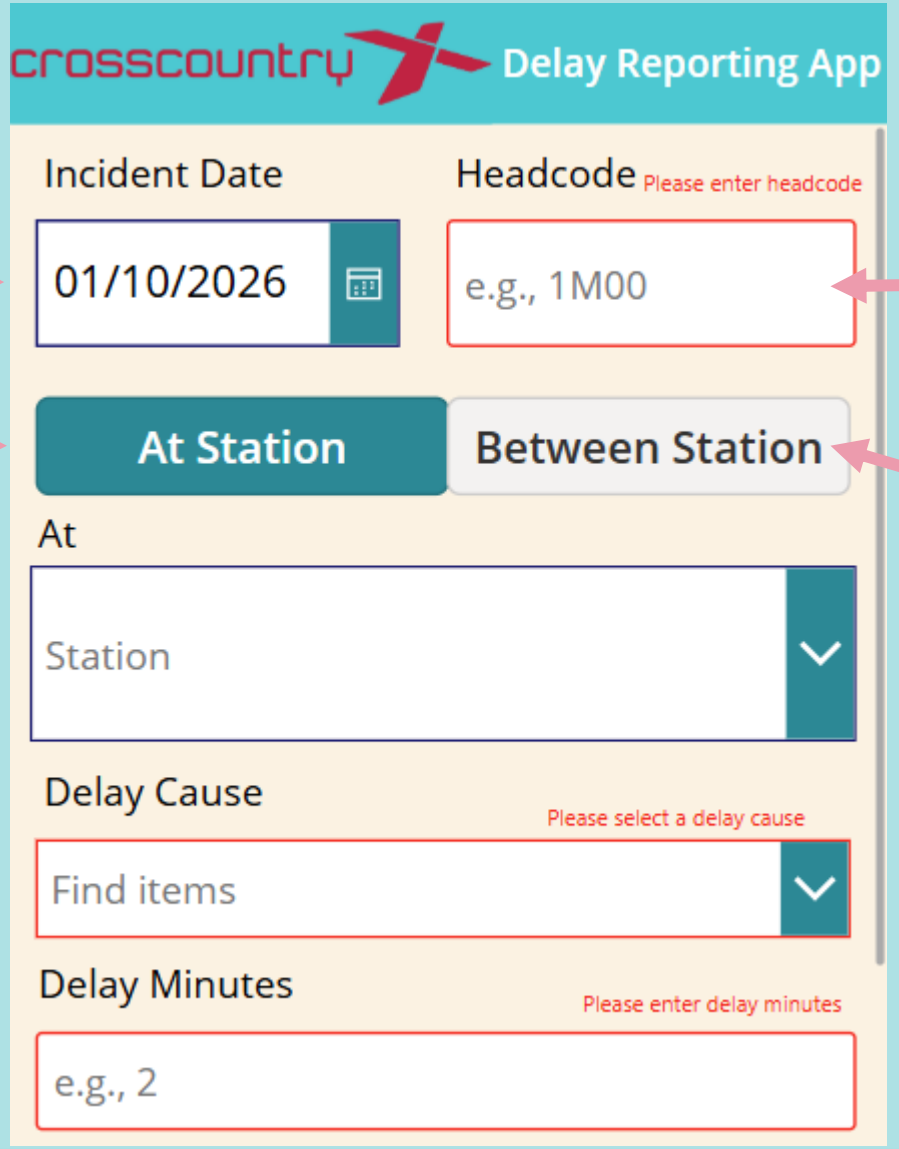

Instruction (Continue)

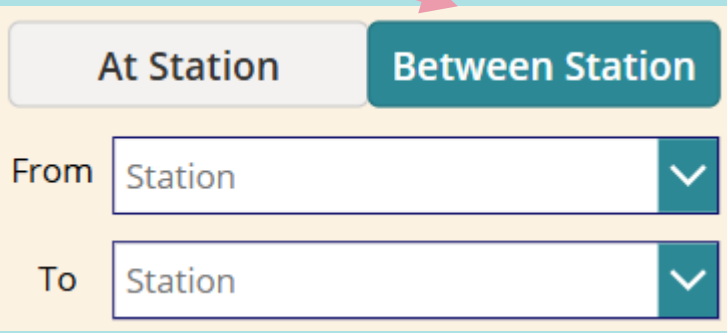

1. Enter date

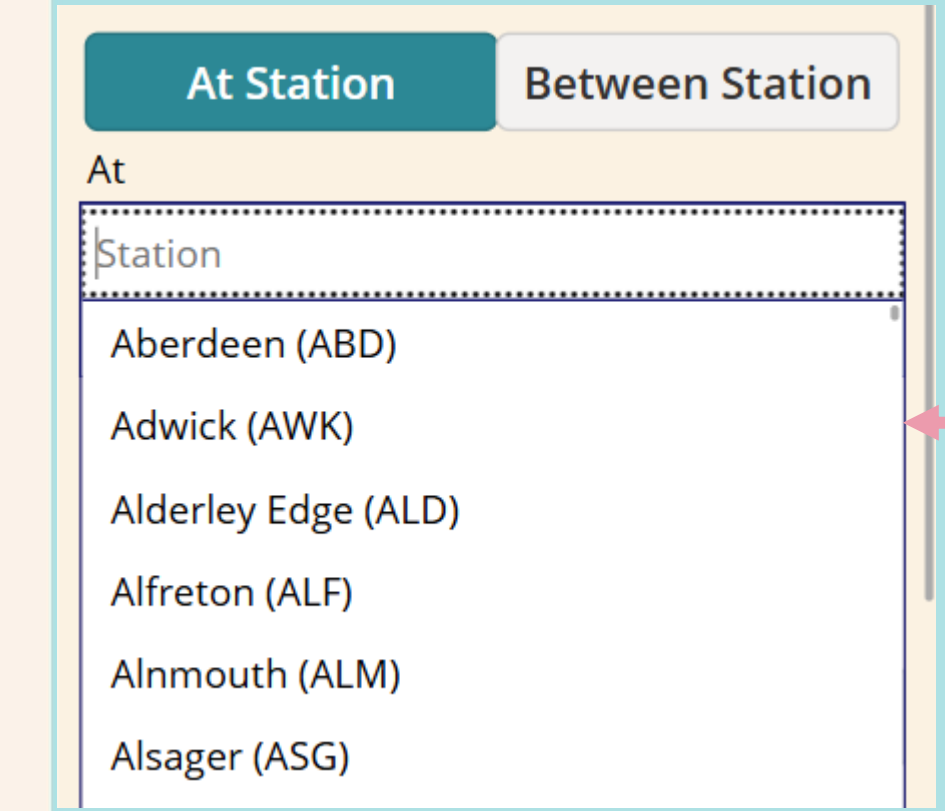

3. Toggle between “At Station” and “Between station”

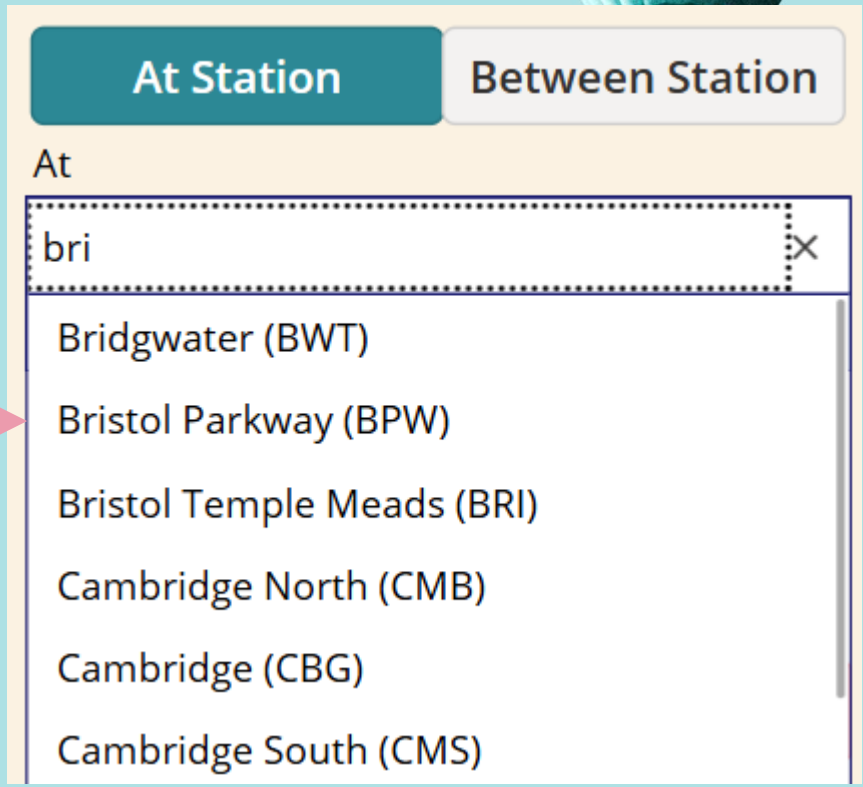

2. Enter Headcode

Instruction (Continue)

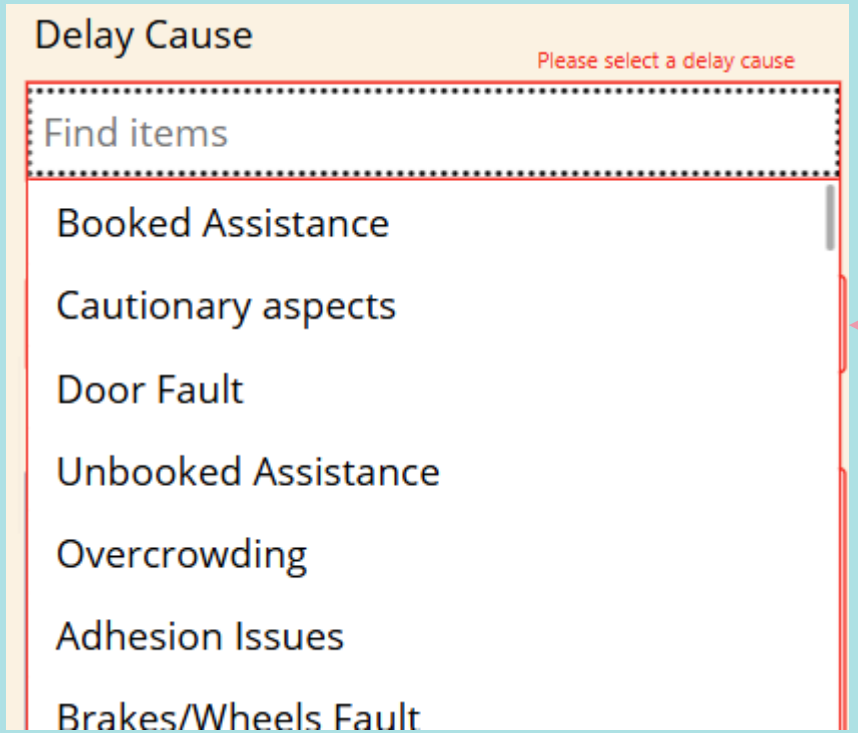

4. Click the dropdown list to pick the station name or type to filter

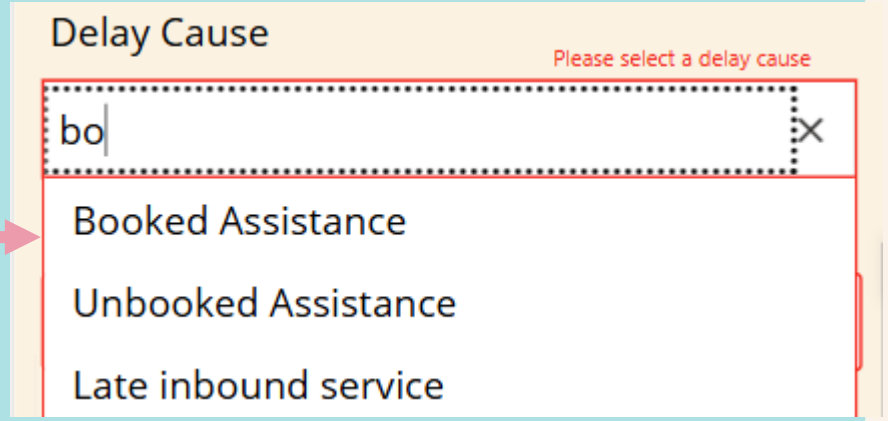

Instruction (Continue)

5. Click the dropdown list to pick the delay cause or type to filter

Instruction (Continue)

5.1 If you have selected a delay incident that could be safety or welfare critical, the following window will pop up on your screen

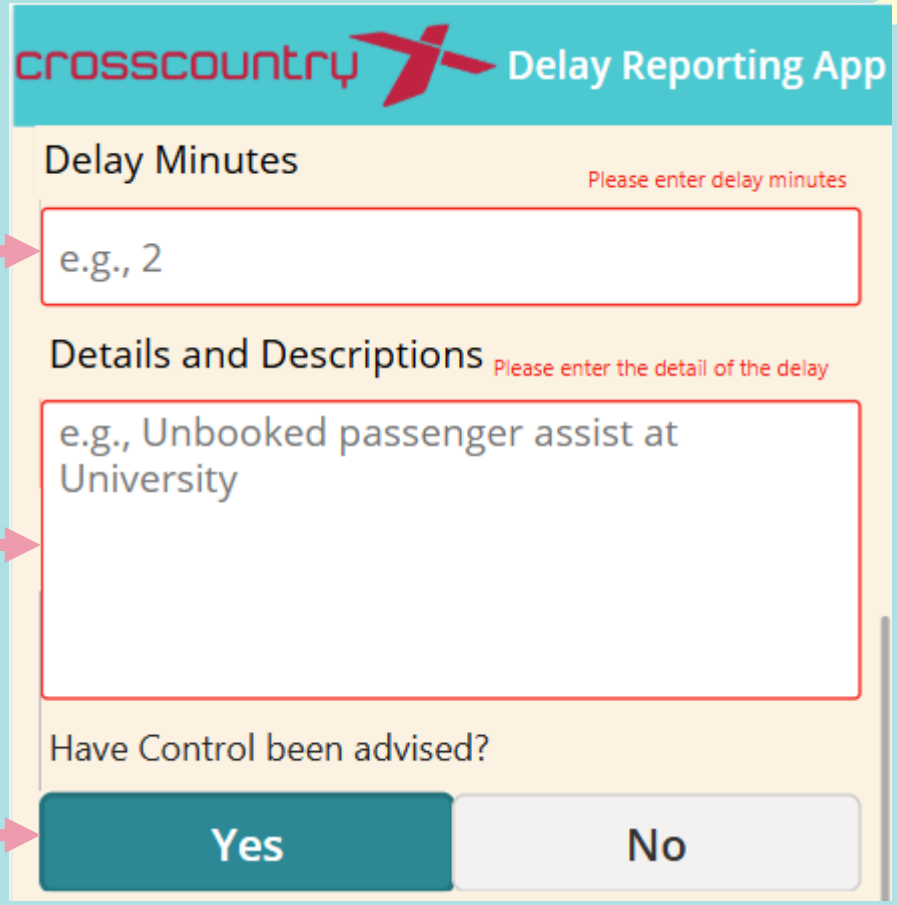

5.2 Please read the message carefully. To acknowledge the message and proceed, press the red button

Instruction (Continue)

6. Enter the delay minutes

7. Enter the details and descriptions of the delay so that Control have more details to understand and attribute the incident promptly

8. Select the option

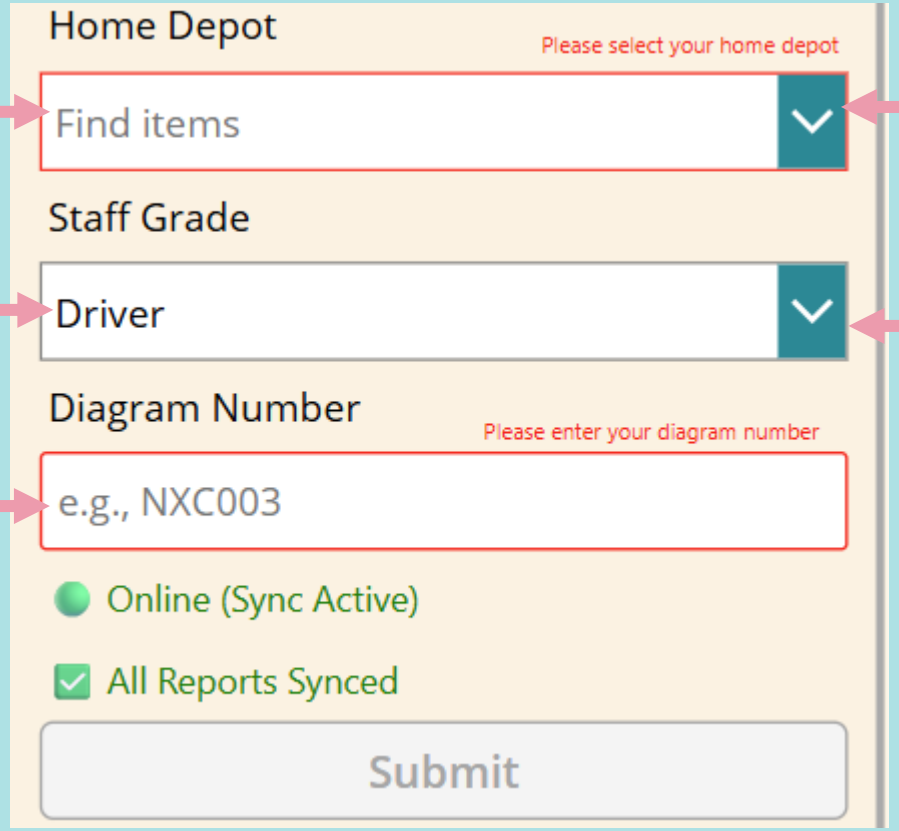

If you have selected a safety or welfare critical delay cause but Control has been advised, you are not allowed to submit the report by program

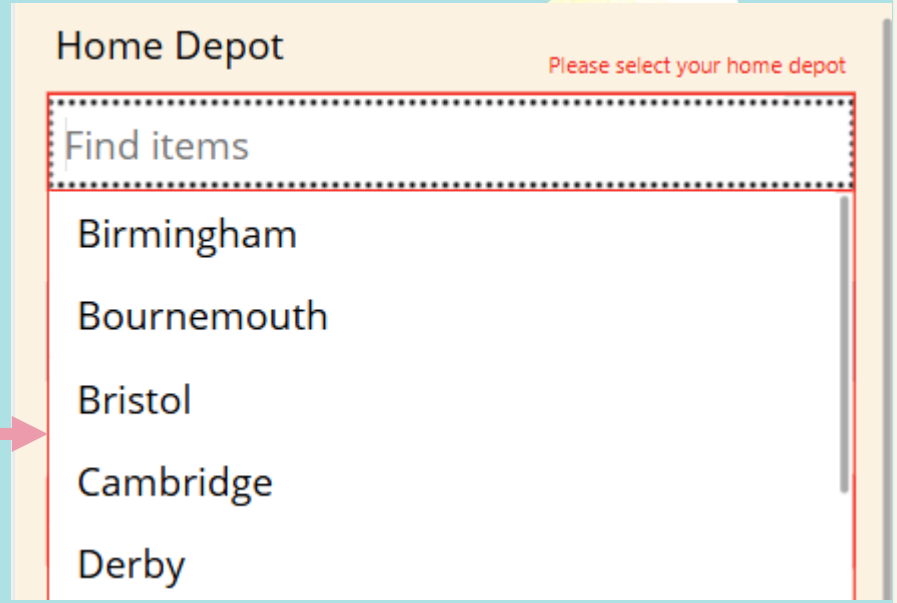

Instruction (Continue)

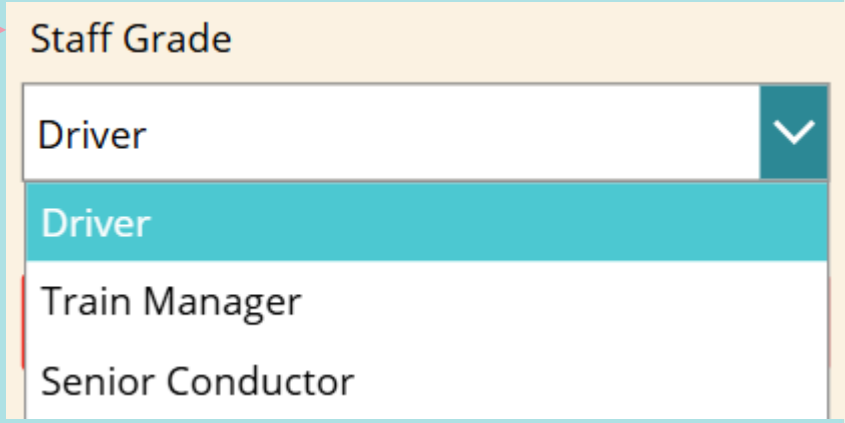

9. Use the dropdown list to select your home depot

10. Choose your staff grade

11. Enter your diagram number

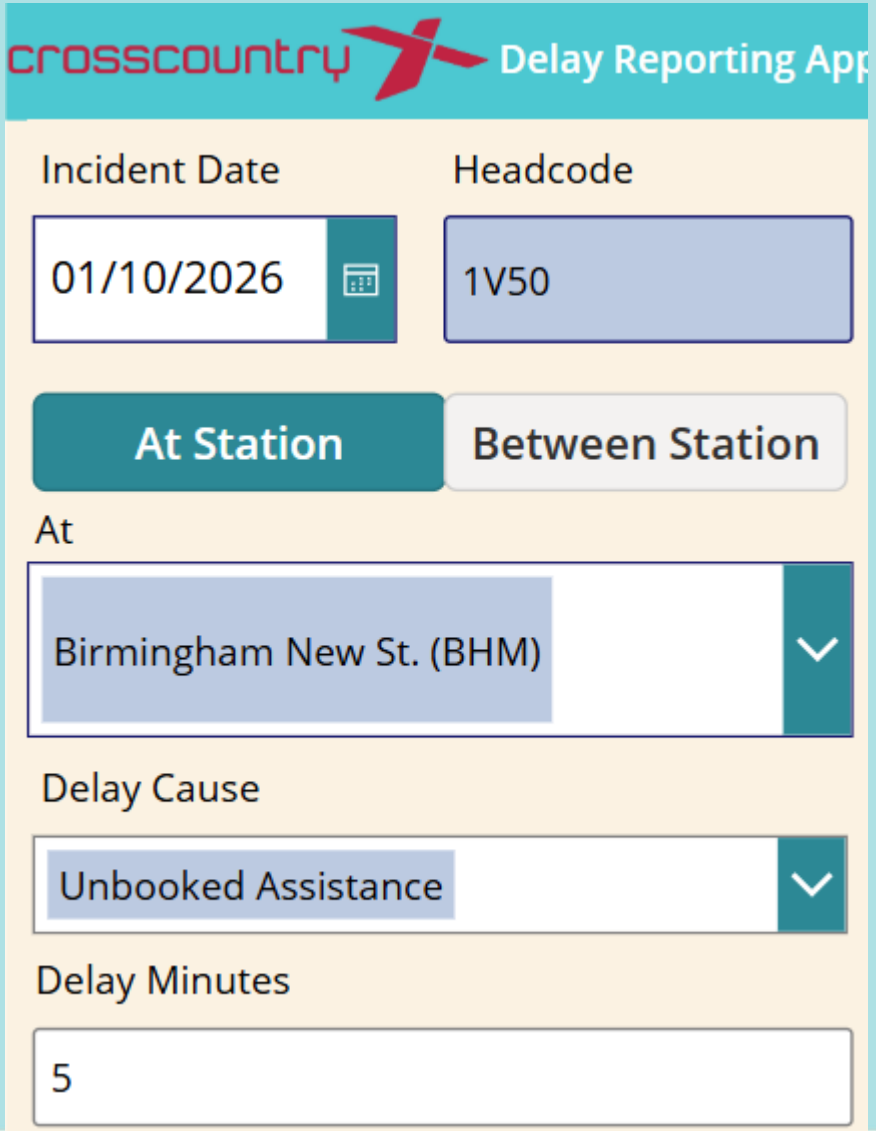

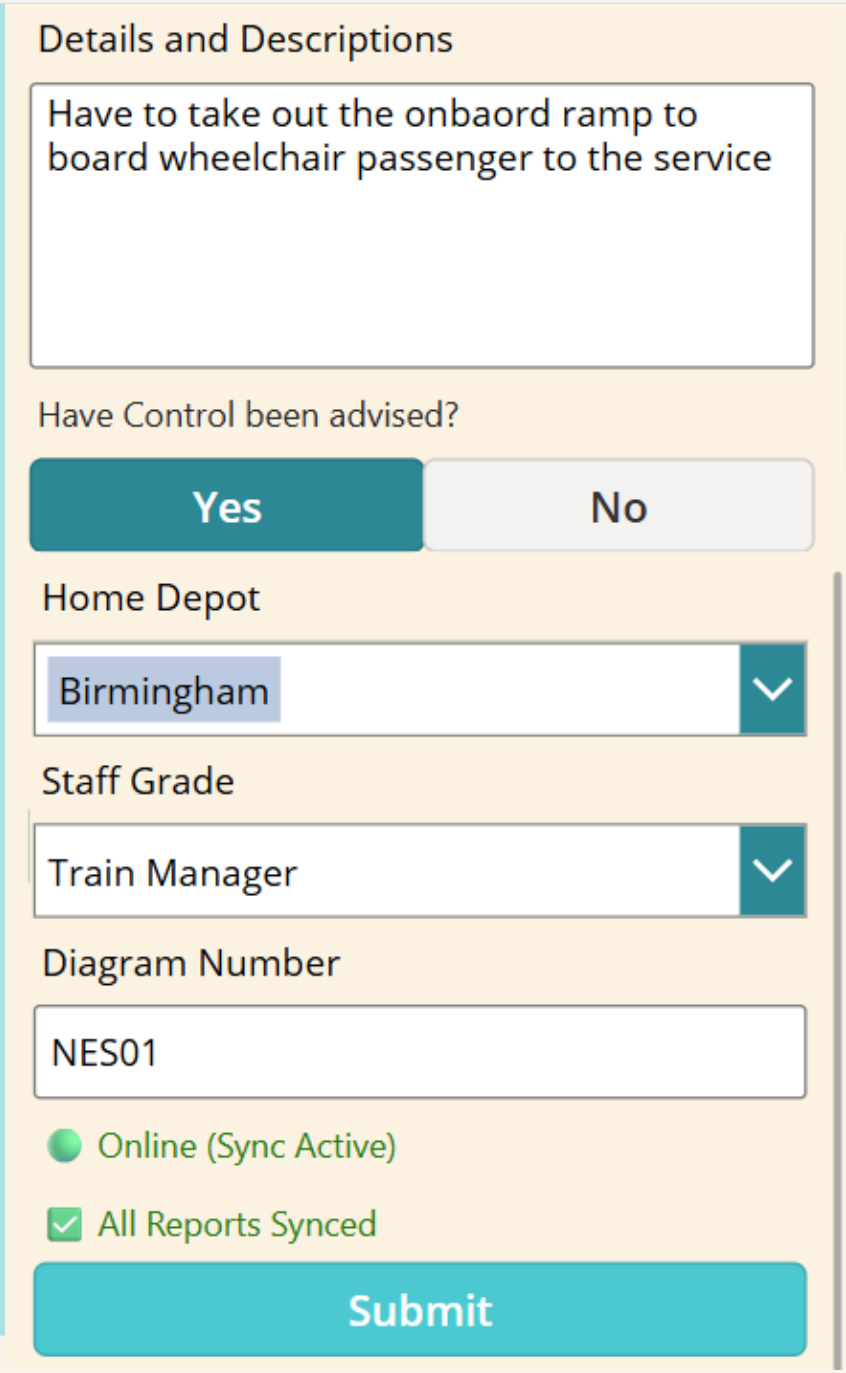

Instruction (Continue)

Once you have filled in every box, you can hit the Submit button to send it to Control. Example:

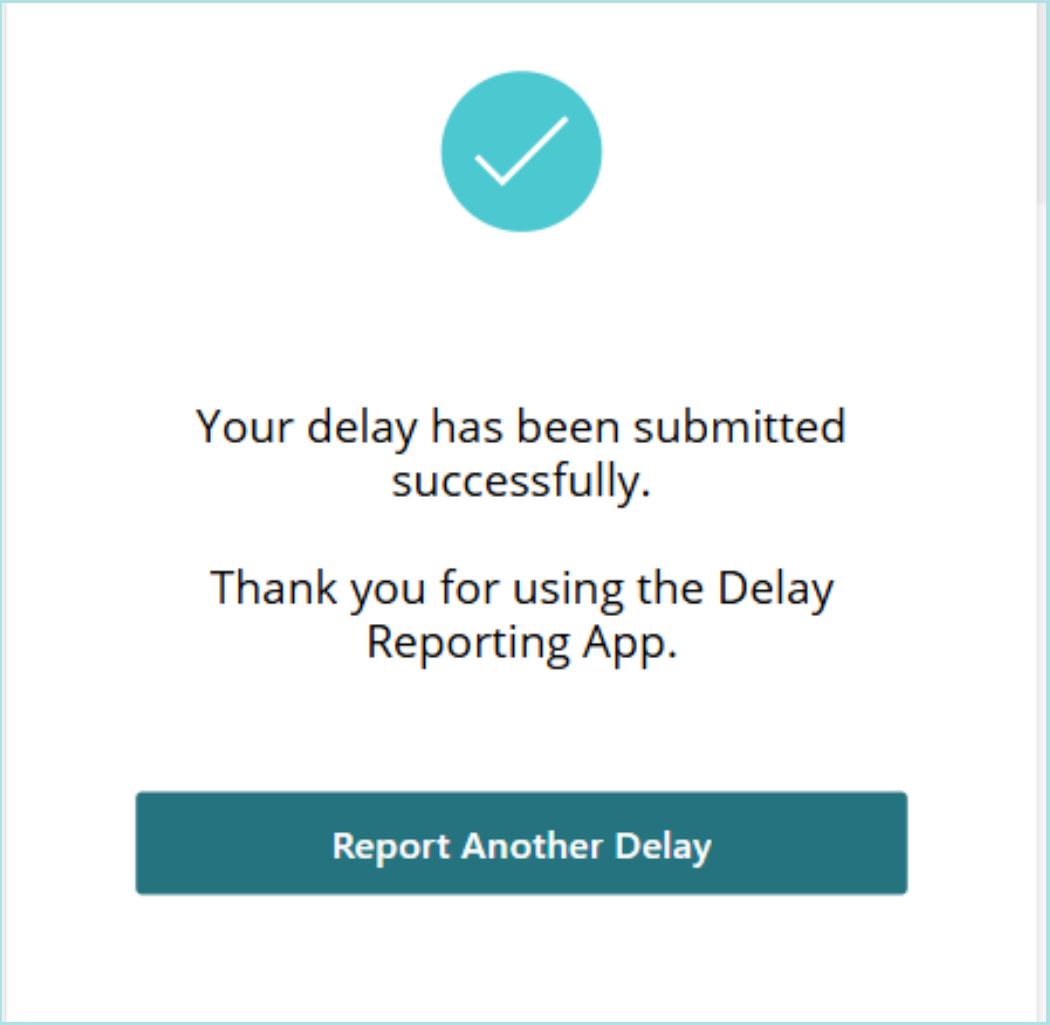

Instruction (Continue)

You will be then diverted to the screen confirming your response has been submitted successfully

If you wish to file another delay report, please hit the blue button

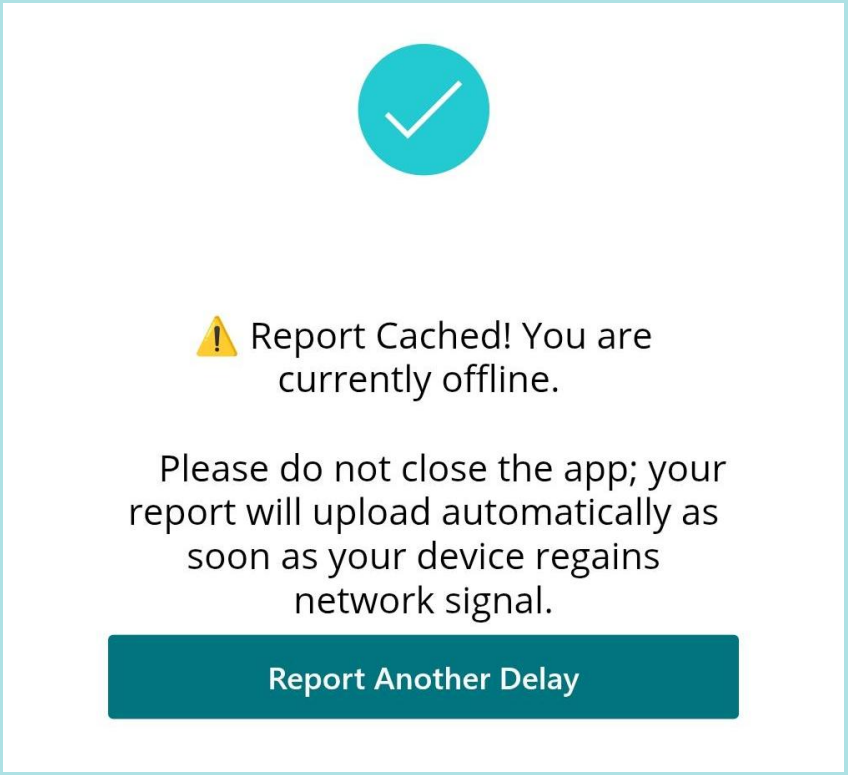

Instruction (Continue)

What if there is no phone signal…

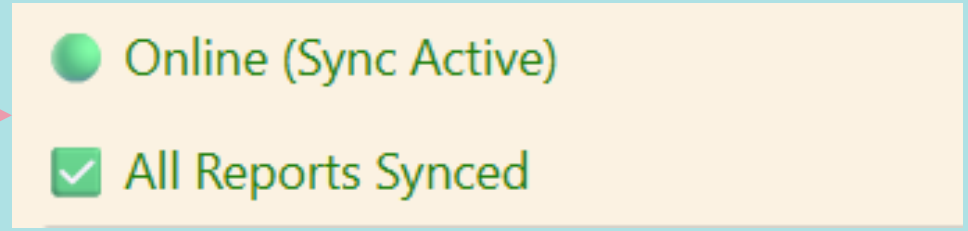

If you send the report when there is no phone signal, your response will be stored in your phone locally

Please keep the app open, it will submit the response again when the signal is back

Question

If you have any question or encountered error, please contact delay.reporting@crosscountrytrains.co.uk inbox and we will contact you as soon as possible
